LinkedIn: linkedin.com/in/abhilash11 | Pega Profile ID: @ABHILASH17141397

Professional Summary:

Pega Certified System Architect (CSA) and Senior System Architect (CSSA) with expertise in Pega Infinity '23 and working knowledge of Infinity '24. Skilled in designing and implementing Pega applications, case management, and automation frameworks to optimize business processes. Hands-on experience in QA Automation using Selenium WebDriver, Java, TestNG, and POM, with strong knowledge of SDLC, STLC, Agile, and defect management to ensure high-quality software delivery.

SKILLS:

- Pega: Case Management, Business Rules, Validations, Reports, Integrations, SLA Management, App Studio, Dev Studio
 - Programming: Java, SQL
 - Test Automation: Selenium WebDriver, TestNG, Page Object Model (POM), Data-Driven Framework
 - Tools: JIRA, Jenkins, Git, Apache POI
 - Concepts: SDLC, STLC, Agile, Defect Lifecycle, CI/CD
 - Testing Types: Manual Testing, Automation Testing
-

Professional Experience:

Pega Systems – Constellation UI Intern

Duration: 2 Weeks

- Gained hands-on exposure to Pega Constellation architecture and modern UI development.
- Explored App Studio-driven development using reusable components and templates.
- Studied differences between Constellation UI and Cosmos UI, focusing on scalability and performance.
- Learned best practices for low-code development, case management, and UI optimization.

QA Automation Engineer

Cognizant | Oct 2025 – Present

- Developed and maintained automation frameworks using Selenium WebDriver, Java, TestNG, and POM.
 - Designed and executed test cases for web applications, improving test coverage and defect detection.
 - Implemented data-driven testing using Apache POI for Excel-based test data.
 - Performed cross-browser testing across Chrome, Edge, and Firefox.
 - Automated functional test scenarios for EMI Calculator application, reducing manual effort.
 - Collaborated with team members to debug issues and enhance test scripts.
 - Gained exposure to CI/CD concepts and Agile methodology.
-

Projects:

Project Title: Automating EMI Calculator.

Tools & Technologies Used: Selenium WebDriver with java, test NG, Apache POI,

- Built end-to-end automation framework using POM.
- Automated validation of EMI calculations with dynamic test data.
- Reduced manual testing effort by automating repetitive test cases.
- Performed data-driven, functional, and cross-browser testing

Project Title: Insurance Application Development.

Tools Used: Case management, Data Models, Business Rules, Validations, Reports, Integration,

- Developed application using case management, business rules, and validations.
- Implemented workflow for policy approvals and premium calculations.
- Integrated user data and document handling.

Project Title: Online Pet Store Application Development.

Tools Used: Case management, Data Models, Validations, Reports, Integration, Sections and UI.

- Designed UI and backend flow using Pega platform.
 - Implemented product browsing, order tracking, and SLA-based delivery logic.
-

Education:

Bachelor of Technology (B.Tech) – Computer Science

ACE Engineering College, Hyderabad

2021 – 2025 | CGPA: 8.0

Higher Secondary (Class XII)

Narayana Jr. College, Hyderabad

2019 – 2021 | CGPA: 9.6

SSC (Class X)

Good Shepherd School, Telangana

2018 – 2019 | CGPA: 9.2

Certifications:

- Pega Certified System Architect (CSA) – Infinity 23
- Pega Certified Senior System Architect (CSSA) – Infinity 23
