

SAMALA ABHILASH

Hyderabad | +91 9515081296 | samalabhilash4123@gmail.com

Professional Summary:

Pega Certified System Architect (CSA) and Senior System Architect (CSSA) with expertise in Pega Infinity '23 and working knowledge of Infinity '24. Skilled in designing and implementing Pega applications with a focus on automation and process efficiency. Hands-on experience in QA Automation using Selenium WebDriver with Java, TestNG, and POM, complemented by strong knowledge of SDLC, STLC, and defect management to ensure high-quality software delivery.

SKILLS:

Programming Languages: Java, SQL.
Platform: Pega (v Infinity 23 & 24.1)
Test Automation: Selenium WebDriver, TestNG
Frameworks: Page Object Model (POM), Data-Driven Framework
Testing types: Manual Testing, Automation Testing
Tools: JIRA, Jenkins, Git
Concepts: SDLC, STLC, Agile, Defect Lifecycle

Professional Experience:

Pega Systems – Constellation UI Intern

Duration: 2 Weeks

- Gained hands-on exposure to Pega Constellation architecture and modern UI development approach
- Explored App Studio-driven development using reusable components and templates
- Studied differences between Constellation UI and Cosmos UI, focusing on scalability and performance
- Learned best practices for low-code development, case management, and UI optimization

QA Automation Engineer

Company Name – Cognizant

Duration: October 28 – today

- Developed and maintained automation frameworks using Selenium WebDriver, Java, TestNG, and POM design pattern
- Designed and executed test cases for web applications, improving test coverage and defects detection
- Implemented data-driven testing using Apache POI to read/write data from Excel
- Performed cross-browser testing to ensure compatibility across Chrome, Edge, and Firefox
- Automated functional test scenarios for EMI Calculator application, improving efficiency
- Collaborated with team members to debug issues and enhance test scripts
- Gained exposure to CI/CD concepts and Agile methodology

Projects:3

Project Title: Automating EMI Calculator.

Tools & Technologies Used: Selenium WebDriver with java, test NG, Apache POI,

- Built end-to-end automation framework from scratch using POM
- Automated validation of EMI calculations using dynamic test data
- Reduced manual testing effort by automating repetitive test cases
- Performed data-driven, functional and cross browser and cross platform testing

Project Title: Insurance Application Development.

Tools Used: Case management, Data Models, Business Rules, Validations, Reports, Integration,

- Developed application using case management, business rules, and validations
- Implemented workflow for policy approvals and premium calculations
- Integrated user data and document handling.

Project Title: Online Pet Store Application Development.

Tools Used: Case management, Data Models, Validations, Reports, Integration, Sections and UI.

- Designed UI and backend flow using Pega platform
- Implemented product browsing, order tracking, and SLA-based delivery logic

Education:

B-Tech.

ACE Engineering College (2021-2025).
Hyderabad, Telangana.

8.0- C.G.P.A

Certifications:

- Certified System Architect infinity 23(PEGA).
- Certified Senior System Architect infinity 23(PEGA).
